

# Kommagetallen vermenigvuldigen

Zet in dit vakje steeds hoeveel plekken je na de komma moet overnemen in het antwoord:

## Voorbeeld:

$$6,32 \times 6,61 =$$

Hier staan 2 x 2 cijfers na de komma (4 in totaal)

Reken de som uit zonder komma's:

$$\begin{array}{r}
 632 \\
 661 \\
 \hline
 632 \\
 37920 \\
 379200 \\
 \hline
 417782
 \end{array}$$

Hier staan dus 4 cijfers na de komma

$$\underline{\hspace{2cm}} \times \text{,}$$

$$\underline{\hspace{2cm}} \times \text{,}$$

$$\underline{\hspace{2cm}} +$$

$$\underline{\hspace{2cm}} +$$

$$\underline{\hspace{2cm}} \times \text{,}$$

$$\underline{\hspace{2cm}} \times \text{,}$$

$$\underline{\hspace{2cm}} \times \text{,}$$

$$\underline{\hspace{2cm}} +$$

$$\underline{\hspace{2cm}} +$$

$$\underline{\hspace{2cm}} +$$

$$\underline{\hspace{2cm}} \times \text{,}$$

$$\underline{\hspace{2cm}} \times \text{,}$$

$$\underline{\hspace{2cm}} \times \text{,}$$

$$\underline{\hspace{2cm}} +$$

$$\underline{\hspace{2cm}} +$$

$$\underline{\hspace{2cm}} +$$
